Confidentiality Guidelines

The Family Educational Rights and Privacy Act (FERPA) gives certain right to parents with respect to their student’s educational and health records. Generally, school must have written permission from the parents to release any information from a student’s educational or health record. These records and the information they contain may only be shared with school officials who have a legitimate educational or health interest.

Together, these two federal laws give guidance on how to handle student information and the Dolores School District Re-4A requires compliance with these laws. Information contained in a student school and health records, or information about a student’s health or school performance must be maintained by district employees in a confidential manner at all times. Violation of this confidentiality can result in disciplinary action for our employees, and could also be subject to criminal and civil penalties.

District volunteers must avoid sharing any confidential information about students except to those authorized by the district to have a direct need to know (health service providers, principals, administrators, special education teachers, district nurse, BOCES providers). Protected information includes student grades or performance on school tasks, medications, health status, or history of disease, frequency of doctor’s appointments, history of retention, disciplinary history and eligibility for special education services.

The district’s interest in protecting confidential information also extends to its staff members. Examples of protected information about staff members include disciplinary records, evaluation results, health information, and complaints.

The Health Insurance Portability and Accountability Act (HIPPA) assures that individual’s health information is properly protected while allowing the flow of health information needed to provide high quality health care. HIPPA provides standards for the privacy of individually identifiable health information of students and staff.

In public schools, individually identifiable health information relates to the student’s past, present, or future physical or mental health or condition, the provision of health care to the student, or the past, present, or future payment for the provision of health care to the student. This includes identifiers such as names of the student’s relatives, household member, residence address, grade level, or physical characteristics.

I hereby certify that I have received, reviewed, and understand these Confidentiality Guidelines and will adhere to these responsibilities.
