The auditor talked the members of the Board and the superintendent through the details of the completed audit, and fielded questions about topics such as PERA impacts on the audit, COVID-19-related grant funds, reserve funds, lunch funds, etc. The Board, the superintendent, and the auditor discussed the fact that Dolores School District is healthy and fiscally sound, per the auditor, and will have increased revenue due to increased enrollment compared to the prior year; and that the district has a reserve fund that is larger than many other districts. They discussed ways that bonds could possibly be paid down more quickly using other funds, and upcoming mill levy override expiration and potential request for renewal.
