Director Rosenkrance

Teddy Bear Preschool

As I am writing this final article of the school year, there are only 2 days left. I can't believe it went by so quickly.

I want to thank every person who volunteered their time and attended our school activities. Your child appreciates you as we also appreciate you.

Have a wonderful summer! Here are some important dates and information for those of you who will be returning in the fall.

August 12th, 2024 - First Day of School, Teddy Bear Preschool will contact you by phone, text or email the last week of July.

If you have any questions, I will do my best to answer emails throughout the summer, vrosenkrance@dolores.k12.co.us

Dolores Elementary School

June 2024

Hello Summer! The Dolores Elementary Staff has enjoyed the growth of our students, the new relationships created with families as well as the strengthening of those established relationships.

Many parents and caregivers often ask how to make summer productive for their children. While there is no best way to go about summer learning there are a few parent tips that most can easily adapt into your routine.

Make time for reading, this is by far the best way to reduce learning loss that occurs during summer. Our local libraries all have summer reading programs.

Promote being active. Physical activity is a great way to create positive experiences and we live in one of the best places to expend extra energy.

Set limits for screen time beforehand and play games with strategy or math components such as counting are all ways that you can do little math and have time to be present for you and your family.

The entire staff wish you and your family a happy and safe summer.

Principal Weiss

Dolores Middle School

Middle school is such a formative time filled with growth, learning, and memorable experiences. Reflecting on the year, it's incredible to see how much everyone has accomplished and how far they've come. From academic achievements to personal growth and friendships formed, there's so much to celebrate. Take time to reflect and think about your favorite moments or highlights from the year.

Enjoy your time off, recharge, and make the most of your summer break. When you return in August, be prepared to hit the ground running. In preparation for a smooth start for the 2024-2025 school year, please review the following dates for your reference.

Monday, August 12-6th Grade only will begin at 7:45 AM.

Tuesday, August 13-All 6th-8th Middle School students will begin at 7:45 AM.

Current school supply lists for the upcoming school year will be out soon. Until then, take care and have a fantastic summer!

Principal Schmitt

Dolores High School

Dear Students, Parents and Community Members:

We've grown a lot this year as a school community. The Dolores High School teachers and staff would like to thank all of its students, parents and community members for your partnership in making it all happen.

There are a lot of things to celebrate -

- We have increased the number of concurrent enrollment courses that are now available to our students on our campus. Next year there will be even more.

- We have added new and innovative career and technical education offerings. We are one of the only districts in the state to have a saw mill; our welding, agriculture, and woods programs are continuing to grow; we have also been fortunate to be able to utilize grant funding to purchase some awesome equipment for our programs. Through our membership in the Southwest Colorado Education Collaborative we have been able to acquire some really nice digital fabrication equipment, including a CNC router and 3D printer, that will allow us to open up a new career pathway in digital fabrication.

- Our NWEA assessment results showed positive growth in math, science and language usage.

- Our high school enrollment continues to grow each year.

- We are building on the extra curricular offerings that we have and adding new programs for our students. Our Debate team went to state this year, its inaugural year

- We have been able to hire some amazing teachers that are really fitting in nicely at the school and enhancing the learning opportunities for our students.

- We have established a firm foundation for our academic guidance program and the level of student support in this area is at the highest level it has been at in at the last 5 years.

- Our new attendance policies have resulted in an improved attendance rate and successful course completion rate.

Once again, we are grateful for your partnership as we continuously work to improve our school. Enjoy the time you have together this summer and we will see you in August!

Warm regards,

Dolores High School Teachers and Staff
