#### INDEPENDENT AUDITOR'S REPORT

To the Board of Education Montezuma County (Dolores) School District RE-4A Dolores, Colorado 81323

#### **Opinions**

We have audited the accompanying financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of Montezuma County (Dolores) School District RE-4A, as of and for the year ended June 30, 2025, and the related notes to the financial statements, which collectively comprise Montezuma County (Dolores) School District RE-4A's basic financial statements as listed in the table of contents.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund, and the aggregate remaining fund information of Montezuma County (Dolores) School District RE-4A, as of June 30, 2025, and the respective changes in financial position and the respective budgetary comparisons for the General Fund and the Lunch Fund for the year then ended in accordance with accounting principles generally accepted in the United States of America.

#### Basis for Opinions

We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of Montezuma County (Dolores) School District RE-4A and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

#### Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about Montezuma County (Dolores) School District RE-4A's ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

#### Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of Montezuma County (Dolores) School District RE-4A's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial
  doubt about Montezuma County (Dolores) School District RE-4A's ability to continue as a going concern for a
  reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

#### Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis, Schedule of District Pension Contributions, Schedule of the District's Proportionate Share of the Net Pension Liability, Schedule of District OPEB Contributions, and Schedule of the District's Proportionate Share of the Net OPEB Liability as listed in the table of contents be presented to supplement the basic financial statements. Such information is the responsibility of management and, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

#### Supplementary Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Montezuma County (Dolores) School District RE-4A's basic financial statements. The accompanying budgetary comparison schedules and Colorado Department of Education Auditors" Integrity Report, are presented for purposes of additional analysis and are not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the budgetary comparison schedules and Colorado Department of Education Auditors' Integrity Report, are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

#### MANAGEMENT'S DISCUSSION AND ANALYSIS (UNAUDITED) For the Year Ended June 30, 2025

#### FINANCIAL HIGHLIGHTS

Key financial highlights for the District in fiscal year 2025 are as follows:

- In total, net position increased \$2,647,678 from \$2,329,964 to \$4,977,642.
- ➤ General revenues accounted for \$11,343,086 in revenue or 82 percent of all revenues. Program specific revenues in the form of charges for services, grants and contributions accounted for \$2,434,907 or 18 percent of total revenues of \$13,777,993.
- ➤ Governmental activities total assets increased by \$12,784,694 and deferred outflows of resources decreased by \$1,822,885. Total liabilities increased by \$8,107,028. Total deferred inflows of resources increased by \$207,103.
- ➤ The District incurred \$11,130,315 in expenses related to government activities. \$2,434,907 of these expenses was offset by program specific charges for services, grants and contributions. General revenues (primarily state equalization and property taxes) of \$11,343,086 were adequate to cover the balance of the cost of these programs.
- ➤ Among the major funds, the General Fund had \$10,307,144 in revenues and \$10,249,941 in expenditures including transfers. Its fund balance increased by \$57,203 from \$5,662,830 to \$5,720,033.

#### MANAGEMENT'S DISCUSSION AND ANALYSIS (UNAUDITED) For the Year Ended June 30, 2025

#### **OVERVIEW OF THE FINANCIAL STATEMENTS**

This annual report consists of three parts: management's discussion and analysis, the basic financial statements, and required supplementary information. The basic financial statements include two kinds of statements that present different views of the District.

- The first two statements are district-wide financial statements that provide both short-term and long-term information about the District's overall financial status.
- ➤ The remaining statements are fund financial statements that focus on individual parts of the District, reporting the District's operations in more detail than the district-wide statements.
- The governmental funds statements tell how basic services such as instruction were financed in the short-term as well as what remains for future spending.

The financial statements also include notes that explain some of the information in the statements and provide more detailed data. The statements are followed by a section of required supplemental information that further explains and supports the financial statements with a comparison of the District's budget for the year.

#### **District-wide Statements**

The district-wide statements report information about the District as a whole using accounting methods similar to those used by private companies. The statement of net position includes all of the District's assets, deferred outflows of resources, liabilities and deferred inflows of resources if applicable. All of the current year's revenues and expenses are accounted for in the statement of activities regardless of when cash is received or paid.

The two district-wide statements report the District's net position and how it has changed. Net position (the difference between the District's assets, deferred outflows of resources, liabilities and deferred inflows of resources if applicable) is one way to measure the District's financial position.

Over time, increases or decreases in the District's net position is an indicator of whether its financial position is improving or deteriorating.

#### MANAGEMENT'S DISCUSSION AND ANALYSIS (UNAUDITED) For the Year Ended June 30, 2025

To assess the District's overall health, you need to consider additional non-financial factors such as changes in the District's property tax base and the condition of school facilities.

In the district-wide financial statements, the District's activities are included in one category:

➤ **Governmental activities-** All of the District's basic services are included here, such as instruction, transportation, maintenance and operations, and administration. These activities are financed mainly through property taxes and state equalization funds.

#### Fund Financial Statements

The fund financial statements provide more detailed information about the District's funds, focusing on its most significant or "major" funds, not the District as a whole. Funds are accounting devices the District uses to keep track of specific sources of funding and spending on particular programs. Some funds are required to be established by state law. However, the District establishes many other funds to help it manage and control its finances to achieve certain results.

The District uses one type of fund:

➢ Governmental funds- Most of the District's basic services are included in governmental funds, which focus on how money flows into and out of those funds and the balances left at year-end that are available for spending. These funds are reported using the modified accrual basis of accounting, which measures cash and all other financial assets that can readily be converted to cash. The governmental fund statements provide a detailed short-term view of the District's general operations and the services it provides. Governmental fund information helps one determine whether there are more or fewer financial resources that can be spent in the near future to finance the District's programs. Because this information does not encompass the additional long-term focus of the district-wide statements, additional information at the bottom of the governmental funds statements explains the relationship (or difference) between them.

# MANAGEMENT'S DISCUSSION AND ANALYSIS (UNAUDITED) For the Year Ended June 30, 2025

#### FINANCIAL ANALYSIS OF THE DISTRICT AS A WHOLE

Total assets increased by \$12,784,694. Net capital assets increased by \$1,031,481. Total liabilities increased by \$8,107,028.

The District's combined net position was larger on June 30, 2025 than it was at June 30, 2024, increasing by \$2,647,678 to \$4,977,642.

Table 1 provides a summary of the District's net position for 2025 compared to 2024:

#### MANAGEMENT'S DISCUSSION AND ANALYSIS (UNAUDITED) For the Year Ended June 30, 2025

State equalization and property taxes accounted for most of the District's total revenue, with each contributing 46.1 percent and 21.7 percent respectively (See Table 3). Another 12.7 percent came from local, state and federal grants and the remainder from charges for services and miscellaneous sources.

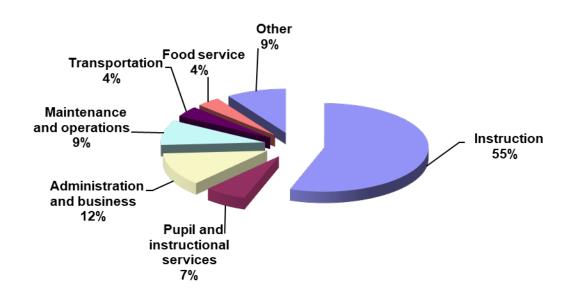

The District's expenses are predominately related to instruction, (55 percent) (See Table 4). The District's administrative and business activities accounted for 12 percent of total costs.

Table 3
Sources of Revenue for Fiscal Year 2025

#### MANAGEMENT'S DISCUSSION AND ANALYSIS (UNAUDITED) For the Year Ended June 30, 2025

Table 4
Expenses for Fiscal Year 2025

#### Governmental Activities

The primary source of operating revenue for school districts comes from the School Finance Act of 1994 (SFA). Under the SFA the District received \$12,809 per funded student. In fiscal year 2025 the funded pupil count was 629.8. Funding for the SFA comes from property taxes, specific ownership taxes and state equalization. The District receives approximately 75 percent of this funding from state equalization while the remaining amounts come from property and specific ownership taxes.

The statement of activities shows the cost of program services and the charges for services and grants offsetting those service costs. Table 5 shows, for governmental activities, the total cost of services and net cost of services. That is, it identifies the cost of these services supported by unrestricted state equalization and property taxes.

- > The cost of all governmental activities during the year was \$11.130 million.
- Some of the cost was financed by the users of the District's programs (\$.684 million)
- Federal, state and local grants subsidized certain programs with grants and contributions (\$1.752 million).
- ➤ However, most of the District's costs (\$11.343 million) were financed by State and District taxpayers. This portion of governmental activities was mainly financed with \$6.346 million in state equalization and \$3.214 million in property and specific ownership taxes.

# MANAGEMENT'S DISCUSSION AND ANALYSIS (UNAUDITED) For the Year Ended June 30, 2025

#### FINANCIAL ANALYSIS OF THE DISTRICT'S FUNDS

Information about the District's major funds starts on page 15. These funds are accounted for using the modified accrual basis of accounting. All governmental funds have total revenues and other financing sources of \$23.964 million and expenditures of \$12.301 million.

#### General Fund Budgetary Highlights

The District's budget is prepared according to Colorado law and is based on accounting for certain transactions on a basis of cash receipts and disbursements. The most significant budgeted fund is the General Fund.

Over the course of the year, the District revised the annual operating budget by increasing appropriations by \$388,947 mainly to reflect revenues that were in excess of what was anticipated at the time of the original budget.

Actual expenditures were \$5.533 million below budget.

#### CAPITAL ASSET ADMINISTRATION

By the end of 2025, the District has invested \$17.743 million in land, buildings, and equipment (including vehicles).

Table 6 shows capital assets for 2025 compared to 2024:

#### MANAGEMENT'S DISCUSSION AND ANALYSIS (UNAUDITED) For the Year Ended June 30, 2025

Additional information on the District's capital assets can be found in Note 4 on page 29 of this report.

#### FACTORS BEARING ON THE DISTRICT'S FUTURE

At the time these financial statements were prepared and audited, the District is not aware of any existing circumstances that could significantly affect its financial health in the future.

#### CONTACTING THE DISTRICT'S FINANCIAL MANAGEMENT

This financial report is designed to provide the District's citizens, taxpayers, parents, and creditors with a general overview of the District's finances and to demonstrate the District's accountability for the money it receives. If you have questions about this report or need additional financial information, contact the Business Office, Montezuma County (Dolores) School District RE-4A, P.O. Box 727 Dolores, Colorado 81323.

Reconciliation of Statement of Revenues, Expenditures, and Changes in Fund Balances of Governmental Funds to the Statement of Activities

#### For the Year Ended June 30, 2025

| Net Change in Fund Balances Governmental Funds  |     |  | \$<br>11,562,588 |
|---|-----|--|------------------|
| Amounts reported for governmental activities in the statement of activities are different because   | se: |  |                  |
| Governmental funds report capital outlay as expenditures. However, in the Statement of Activities, the cost of those assets is allocated over their estimated useful lives as depreciation expense. This is the amount by which depreciation exceeded capital outlay in the current period. |     |  |                  |
| Capital outlay Depreciation expense   | \$  | 1,474,187<br>(442,706)                       | 4 004 404        |
| Proceeds from BEST general obligation bonds are shown as other financing sources in the governmental funds. They are not included in the Statement of Activities  |     |  | 1,031,481        |
| Proceeds from BEST general obligation bonds   |     |  | (10,110,000)     |
| Repayment of debt principal is an expenditure in the governmental funds but the repayment reduces long-term liabilities in the Statement of Net Position.   |     |  |                  |
| General obligation bond payments  |     |  | 225,000          |
| Governmental funds report district pension and OPEB contributions as expenditures. However, in the Statement of Activities, the cost of pension and OPEB benefits earned net of employee contributions are reported as an expense.  |     |  |                  |
| District pension contributions District OPEB contributions Cost of benefits earned net of employee contributions Cost of OPEB benefits earned net of employee contributions   |     | 1,122,892<br>56,183<br>(1,383,877)<br>27,249 |                  |
| Governmental funds report the District's share of State contributions to PERA as revenue and expenditures. However, in the Statement of Activities, the District's proportionate share of the State PERA pension benefit included in the District's pension expense is reported as revenue. |     |  | (177,553)        |
| District proportionate share of State Contribution revenue District proportionate share of State Contribution expenditure   |     | (92,246)<br>92,246                           |                  |

#### NOTES TO THE FINANCIAL STATEMENTS June 30, 2025

1. Summary of Significant Accounting Policies – The accounting policies of the Montezuma County School District RE-4A ("District") conform to U.S. generally accepted accounting principles, as applicable to school districts. The Governmental Accounting Standards Board (GASB) is responsible for establishing GAAP for state and local governments through its pronouncements (Statements of Interpretations).

The following significant accounting policies were applied in the preparation of the accompanying financial statements.

Reporting Entity - The Montezuma County School District RE-4A Board of Education ("Board") is the basic level of government which has financial accountability and control over all activities related to the public school education in the Town of Dolores, Colorado. The Board receives funding from local, state and federal government sources and must comply with the concomitant requirements of these funding source entities. However, the Board is not included in any other governmental "reporting entity" as defined by the GASB pronouncement, since Board members are elected by the public and have decision making authority, the authority to levy taxes, the power to designate management, the ability to significantly influence operations and primary accountability for fiscal matters. In addition, there are no component units as defined in Governmental Accounting Standards Board Statements 14, 39 and 61, which are included in the District's reporting entity.

**Fund Accounting** – The accounts of the District are organized on the basis of funds, each of which is considered a separate accounting entity. The operations of each fund are accounted for with a separate set of self-balancing accounts that comprise its assets, liabilities, fund equity, revenues and expenditures or expenses, as appropriate. Governmental resources are allocated to and accounted for in individual funds based upon the purposes for which they are to be spent and in the means by which spending activities are controlled. The various funds are grouped, into three categories: governmental, proprietary and fiduciary. Each category, in turn, is divided into separate "fund types".

**Governmental Funds-** are used to account for all or most of a government's general activities, including the collection and disbursement of earmarked funds (special revenue funds). The following are the District's major governmental funds:

**General Fund-** is the general operating fund of the District. It is used to account for all financial resources except those required to be accounted for in another fund. Major revenue sources include local property taxes, specific ownership taxes, and State of Colorado equalization funding, as determined by the School Finance Act of 1994, as amended. Expenditures include all costs associated with the daily operation of the schools, except for programs funded by certain capital outlay expenditures, food service expenditures, extracurricular athletic and other pupil activities, and insurance transactions.

**Lunch Fund-** is used to account for the financial transactions related to the food service operations of the District. The major sources of revenues are food service grants.

#### NOTES TO THE FINANCIAL STATEMENTS June 30, 2025

**Debt Service Fund-** is used to account for the accumulation of resources for, and the payment of, long term debt principal, interest and related costs.

**Capital Projects Fund-** the Capital Projects Fund accounts for the accumulation of resources and expenditure of resources for capital improvements within the District.

**Building Fund-** is used to account for the accumulation of funds from the Colorado BEST Grant and the voter approved general obligation bonds along with the associated expenditure of those funds for the major renovation of the District's facilities

**Non-major Funds-** the following fund is the only non-major fund of the District. It is a special revenue fund.

**Student Activity Fund** – is used to account for the financial transactions related to the student activities of the District.

#### Basis of Presentation-

**District-wide Financial Statements-** The statement of net position and the statement of activities display information about the District as a whole. These statements include the financial activities of the primary government except for fiduciary funds. The statements distinguish between those activities of the District that are governmental and those that are considered business-type activities.

The district-wide statements are prepared using the economic resources measurement focus and the accrual basis of accounting. This is the same approach used in the preparation of the proprietary fund financial statements but differs from the manner in which governmental fund financial statements are prepared. Governmental fund financial statements therefore include reconciliation with a brief explanation to better identify the relationship between the district-wide financial statements and the statements for governmental funds.

The district-wide statement of activities presents a comparison between direct expenses and program revenues for each segment of the business-type activities of the District and for each function or program of the District's governmental activities. Direct expenses are those that are specifically associated with a service, program or department and therefore clearly identifiable to a particular function. Program revenues include charges paid by the recipient of the goods or services offered by the program and grants and contributions that are restricted to meeting the operational or capital requirements of a particular program. Revenues, which are not classified as program revenues, are presented as general revenues of the District, with certain limited exceptions. The comparison of direct expenses with program revenues identifies the extent to which each business segment or governmental function is self-financing or draws from the general revenues of the District.

**Fund Financial Statements-** Fund financial statements report detailed information about the District. The focus of governmental fund financial statements is on major funds rather than reporting funds by type. Each major fund is presented in a separate column. Non-major funds are aggregated and presented in a single column.

#### NOTES TO THE FINANCIAL STATEMENTS June 30, 2025

The accounting and financial reporting treatment applied to a fund is determined by its measurement focus. All governmental fund types are accounted for using a flow of current financial resources measurement focus. The financial statements for governmental funds are a balance sheet, which generally includes only current assets and current liabilities, and a statement of revenues, expenditures and changes in fund balances, which reports on the sources (i.e., revenues and other financing sources) and uses (i.e., expenditures and other financing uses) of current financial resources.

Fiduciary funds are reported using the economic resources measurement focus.

**Basis of Accounting** – determines when transactions are recorded in the financial records and reported on the financial statements. District-wide financial statements are prepared using the accrual basis of accounting. Governmental funds use the modified accrual basis of accounting. Proprietary and fiduciary funds also use the accrual basis of accounting.

Revenues- Exchange and Non-exchange Transactions- Revenues resulting from exchange transactions, in which each party gives and receives essentially equal value are recorded on the accrual basis when the exchange takes place. On a modified accrual basis, revenues are recorded in the fiscal year in which the resources are measurable and become available. Available means that the resources will be collected within the current fiscal year or are expected to be collected soon enough thereafter to be used to pay liabilities of the current fiscal year. For the District, available means expected to be received within sixty days of fiscal year-end.

Non-exchange transactions, in which the District receives value without directly giving equal value in return, include property taxes, grants, entitlements and donations. On an accrual basis, revenues from property taxes are recognized in the fiscal year for which the taxes are levied. State equalization monies are recognized as revenues during the period which they are appropriated. Revenues from grants, entitlements and donations are recognized in the fiscal year in which all eligibility requirements have been satisfied. Eligibility requirements include timing requirements, which specify the year when the resources are required to be used or the fiscal year when use is first permitted, matching requirements, in which the District must provide local resources to be used for a specified purpose, and expenditure requirements, in which the resources are provided to the District on a reimbursement basis. On a modified accrual basis, revenue from non-exchange transactions must also be available before it can be recognized.

Under the modified accrual basis, the following revenue sources are considered to be both measurable and available at fiscal year-end: property taxes collected within 60 days after year-end, interest, tuition, grants and student fees.

**Unearned Revenues-** arise when potential revenue does not meet both the "measurable" and "available" criteria for recognition in the current period. Unearned revenues also arise when resources are received by the District before it has a legal claim to them, as when grant monies are received prior to meeting eligibility requirements. In subsequent periods, when both revenue recognition criteria are met, or when the District has a legal claim to the resources, the liability for unearned revenue is removed and revenue is recognized.

## NOTES TO THE FINANCIAL STATEMENTS June 30, 2025

**Pensions-** The District participates in the School Division Trust Fund (SCHDTF), a cost-sharing multiple-employer defined benefit pension plan administered by the Public Employees' Retirement Association of Colorado (PERA). The net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, pension expense, information about the fiduciary net position (FNP) and additions to/deductions from the FNP of the SCHDTF have been determined using the economic resources measurement focus and the accrual basis of accounting. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

**OPEB-** The District participates in the Health Care Trust Fund (HCTF), a cost-sharing multiple-employer defined benefit OPEB fund administered by the Public Employees' Retirement Association of Colorado (PERA). The net OPEB liability, deferred outflows of resources and deferred inflows of resources related to OPEB, OPEB expense, information about the fiduciary net position and additions to/deductions from the fiduciary net position of the HCTF have been determined using the economic resources measurement focus and the accrual basis of accounting. For this purpose, benefits paid on behalf of health care participants are recognized when due and/or payable in accordance with the benefit terms. Investments are reported at fair value.

**Expenses/Expenditures-** On the accrual basis of accounting, expenses are recognized at the time they are incurred. The fair value of donated commodities used during the year is reported in the statement of revenues, expenses and changes in fund net position as an expense with a like amount reported as donated commodities revenue.

The measurement focus of governmental fund accounting is on decreases in net financial resources (expenditures) rather than expenses. Expenditures are generally recognized in the accounting period in which the related fund liability is incurred if measurable. Allocations of cost, such as depreciation and amortization, are not recognized in governmental funds.

**Budgets and Budgetary Accounting** – The District is required by Colorado Statutes to adopt annual budgets for all funds. Each budget is prepared on the same basis (GAAP basis) as that used for accounting purposes. The following procedures are followed in establishing the budgetary data reflected in the financial statements:

Prior to June 1, the Superintendent's staff submits to the Board of Education a proposed operating budget for the fiscal year commencing the following July 1.

The operating budget includes proposed expenditures and the means of financing them.

Public hearings are conducted to obtain comments.

Prior to June 30, the budget is legally adopted through passage of a resolution by the Board of Education. However, the Board can review and change the adopted budget through January 31.

## NOTES TO THE FINANCIAL STATEMENTS <u>June 30, 2025</u>

Formal budgetary integration is employed as a management control device during the year.

Budgeted amounts reported in the accompanying financial statements are as originally adopted and as amended by the Board of Education throughout the year. Following is a summary of the original budget, total revisions and revised budget for those funds with amended budgets in fiscal year 2025.

|                       | Original<br>Budget | R  | Total<br>Revisions |    | Revised<br>Budget |
|-----------------------|--------------------|----|--------------------|----|-------------------|
| General Fund          | \$<br>14,854,191   | \$ | 388,947            | \$ | 15,243,138        |
| Lunch Fund            | \$<br>409,322      | \$ | 2,992              | \$ | 412,314           |
| Capital Projects Fund | \$<br>459,930      | \$ | 240,226            | \$ | 700,156           |
| Debt Service Fund     | \$<br>665,831      | \$ | 976,334            | \$ | 1,642,165         |
| Student Activity Fund | \$<br>206,320      | \$ | 42,038             | \$ | 248,358           |

Appropriations are adopted by resolution for each fund in total and lapse at the end of each year. Over-expenditures are not deemed to exist unless the fund as a total has expenditures in excess of appropriations.

**Encumbrance Accounting** – under which purchase orders, contracts, and other commitments for the expenditure of monies are recorded in order to reserve that portion of the applicable appropriation, is employed by the District as an extension of formal budgetary integration. Encumbrances outstanding at year-end are cancelled and represent neither a liability nor a reservation of equity.

**Inventories-** Inventories in the Lunch Fund consists of both expendable supplies held for consumption and the cost of goods held for resale, the cost of which is recorded as an expense as they are used. Inventories are valued at cost using the first-in, first-out concept.

**Capital Assets** – General capital assets are those assets not specifically related to activities reported in the proprietary funds. These assets generally result from expenditures in the governmental funds. These assets are reported in the governmental activities column of the district-wide statement of net position but are not reported in the fund financial statements.

All capital assets are valued at historical cost or estimated historical cost if actual historical cost is not available. Donated capital assets are valued at their estimated fair value on the date donated. The District maintains a capitalization threshold of five thousand dollars. The District does not possess any infrastructure.

All reported capital assets are depreciated. Depreciation is computed using the straight-line method over the following useful lives:

#### NOTES TO THE FINANCIAL STATEMENTS June 30, 2025

Governmental **Business-Type Activities** Activities Estimated Lives Estimated Lives Description 20-50 Years N/A **Buildings and Improvements** 5-15 Years 5-15 Years Furniture and Equipment Vehicles 8 Years 15 Years

**Property Tax Revenue Recognition -** of the District is recognized when the Montezuma County Treasurer collects it, on behalf of the District. The property tax is levied in December of the year prior to the year the taxes are collected on all taxable property located in the District. Property taxes become an enforceable lien on January 1 of each year, are due on or before June 15 and are delinquent on June 16.

Property tax revenues are recognized when they become available. Available includes those property tax receivables expected to be collected within sixty days after year-end. Delinquent taxes are considered fully collectible and therefore no allowance for uncollectible taxes is provided. Property taxes levied on January 1 and not collected by June 30 are reflected as a receivable; deferred revenue is the portion of property taxes included in the receivable but not yet available as explained above.

**Accumulated Unpaid Vacations and Sick Pay-** Vacations for twelve- month non-professional employees is two weeks per year after the completion of one year on the job and three weeks per year after the completion of five years on the job. Vacations normally must be taken during the summer months unless special arrangements are made with the immediate supervisor. Vacation time may be accrued and carried over for two years at which time any unused vacation time lapses.

Certified employees will receive ten sick days on the first day of employment to accrue annually to a maximum of sixty days. Support staff employees will begin accruing sick leave on the first day of employment at the rate of one day per month of service, to a maximum of sixty days. A sick leave bank is available to all participating employees.

Personal leave shall be granted at the rate of two days per year, non-accumulative. Personal leave must be approved by the superintendent after being recommended by the immediate supervisor of the employee.

Vacation time, sick leave and personal leave do not vest or accumulate with the employees, that is, the employees have no right to be paid for any of these if not taken in the time indicated, or if they terminate. Under generally accepted accounting principles, there is, therefore, no expense or liability included in the financial statements.

**Accrued Liabilities and General Long-Term Obligations-** All payables, accrued liabilities and long-term obligations are reported in the district-wide financial statements, and all

## NOTES TO THE FINANCIAL STATEMENTS June 30, 2025

payables, accrued liabilities and long-term obligations payable from proprietary funds are reported on the proprietary fund financial statements.

In general, payables and accrued liabilities that will be paid from governmental funds are reported on the governmental fund financial statements regardless of whether they will be liquidated with current resources. However, claims and judgments, the non-current portion of capital leases, compensated absences, and special termination benefits that will be paid from governmental funds are reported as a liability in the fund financial statements only to the extent that they will be paid with current, expendable, available financial resources. In general, payment made within sixty days after year-end are considered to have been made with current available financial resources. Bonds and other long-term obligations that will be paid from governmental funds are not recognized as a liability in the fund financial statements until due.

**Governmental Fund Balances-** In the governmental fund financial statements, fund balances are classified as follows:

**Nonspendable-** Amounts that cannot be spent either because they are in a nonspendable form or because they are legally or contractually required to be maintained intact.

**Restricted-** Amounts that can be used only for specific purposes because of state or federal laws, or externally imposed conditions by grantors or creditors. This includes the District's TABOR reserve for emergencies.

**Committed-** Amounts that can be used only for specific purposes determined by a formal action by the Board of Education.

**Assigned-** Amounts that are designated by the Board of Education for a particular purpose but are not spendable until appropriated. This includes assignments for subsequent year's expenditures and for debt service.

**Unassigned-** All amounts not included in other spendable classifications.

**Use of Restricted Resources-** When an expense is incurred that can be paid using either restricted or unrestricted resources (net position), the District's policy is to first apply the expense toward restricted resources and then toward unrestricted resources. In governmental funds, the District's policy is to first apply the expenditure toward restricted fund balance and then to other, less-restrictive classifications- committed and then assigned fund balances before using unassigned fund balances.

**Net Position-** Net position represents the difference between assets, deferred outflows of resources and liabilities and deferred inflows of resources. Net investment in capital assets, consists of capital assets, net of accumulated depreciation, reduced by the outstanding balances of any borrowings used for the acquisition, construction or improvement of those assets. Net position is reported as restricted when there are liabilities imposed on their use

### NOTES TO THE FINANCIAL STATEMENTS June 30, 2025

either through the enabling legislation adopted by the District or through external restrictions imposed by creditors, grantors or laws or regulations of other governments.

Inter-fund Transactions- Quasi-external transactions are accounted for as revenues, expenditures or expenses. Transactions that constitute reimbursements to a fund for expenditures/expenses initially made from it that are properly applicable to another fund, are recorded as expenditures/expenses in the reimbursing fund and as reductions of expenditures/expenses in the fund that is reimbursed. All other inter-fund transactions, except quasi-external transactions and reimbursements, are reported as transfers.

#### **2. Cash and Investments** – Cash and investments consist of the following:

| Demand accounts            | \$<br>351,751    |
|----------------------------|------------------|
| Certificates of deposit    | 366,139          |
| Colotrust                  | 17,410,525       |
|                            |                  |
| Total cash and investments | \$<br>18,128,415 |

**Deposits-** The Colorado Public Deposit Protection Act (PDPA) governs the District's cash deposits. The statutes specify eligible depositories for public cash deposits, which must be Colorado institutions and must maintain federal insurance on deposits held. Each eligible depository with deposits in excess of the insured levels must pledge a collateral pool of defined eligible assets, to be maintained by another institution or held in trust for all of its local government depositors as a group, with a market value of at least 102% of the uninsured deposits. The State Regulatory Commission for banks and savings and loan associations are required by statute to monitor the naming of eligible depositories and the reporting of uninsured deposits and assets maintained in the collateral pools.

Colorado statutes define eligible investments for local governments. These include bonds and other interest-bearing obligations of or guaranteed by the United States government or its agencies, bonds which are direct obligations of the State of Colorado or any of its political subdivisions, repurchase agreements, commercial paper, guaranteed investment contracts and local government investment pools.

At June 30, 2025 the District had investments in one local government investment pool, the Colorado Liquid Asset Trust (COLOTRUST). This investment pool is an investment vehicle established for local government entities in Colorado to pool surplus funds for investment purposes. The pool is routinely monitored by the Colorado Division of Securities with regard to its operations and investments, which are also subject to provisions of C.R.S. Title 24, Article 75, and Section 6. The fair value of the investments in the pool is the same as the value of the pool shares. This type of investment is not categorized because it is not evidenced by securities that exist in physical or book form. COLOTRUST is rated AAAm by Standard and Poors.

## NOTES TO THE FINANCIAL STATEMENTS <u>June 30, 2025</u>

3. Federal, State and Local Administered Grants- are considered to be earned to the extent of expenditures under the provisions of the grant and, accordingly, when such funds are received they are recorded as deferred revenue until earned. Receivables and deferred revenues are as follows:

|                            | Re | ceivable | <br>Deferred |
|----------------------------|----|----------|--------------|
| General Fund               |    |          |              |
| State Grants               |    |          |              |
| Library Grant              | \$ | 4,500    |              |
| Federal Grants             |    |          |              |
| Title I                    |    | 99,639   |              |
| Title II                   |    | 23,251   |              |
| Title IV Part A            |    | 11,497   |              |
| Stronger Connections Grant |    | 73,223   |              |
| MTSS                       |    |          | \$<br>1,407  |
| Total General Fund         |    | 212,110  | 1,407        |
| Building Fund State Grants |    |          |              |
| Colorado BEST Grant        |    | 533,879  |              |
| Total                      | \$ | 745,989  | \$<br>1,407  |

**4. Capital Assets –** Capital asset activity for the fiscal year ended June 30, 2025 follows:

|  | Capital      |              | Deletions    | Capital       |
|--|--------------|--------------|--------------|---------------|
|  | Assets       |              | Adjustments/ | Assets        |

| Total depreciation governmental activities | \$<br>442,706 |

#### Defined Benefit Pension Plan –

**Plan description-** Eligible employees of the District are provided with pensions through the School Division Trust Fund (SCHDTF)—a cost-sharing multiple-employer defined benefit pension plan administered by PERA. Plan benefits are specified in Title 24, Article 51 of the Colorado Revised Statutes (C.R.S.), administrative rules set forth at 8 C.C.R. 1502-1, and applicable provisions of the federal Internal Revenue Code. Colorado State law provisions may be amended from time to time by the Colorado General Assembly. PERA issues a publicly available annual comprehensive annual financial report (CAFR) that can be obtained at <a href="https://www.copera.org/forms-resources/pera-financial-reports-and-studies">www.copera.org/forms-resources/pera-financial-reports-and-studies</a>.

Benefits provided as of December 31, 2024. PERA provides retirement, disability, and survivor benefits. Retirement benefits are determined by the amount of service credit earned and/or purchased, highest average salary, the benefit structure(s) under which the member retires, the benefit option selected at retirement, and age at retirement. Retirement eligibility is specified in tables set forth at C.R.S. § 24-51-602, 604, 1713, and 1714.

The lifetime retirement benefit for all eligible retiring employees under the PERA Benefit Structure is the greater of the:

- Highest average salary multiplied by 2.5% and then multiplied by years of service credit
- The value of the retiring employee's member contribution account plus a 100% match on eligible amounts as of the retirement date. This amount is then annuitized into a monthly benefit based on life expectancy and other actuarial factors.

In all cases the service retirement benefit is limited to 100% of highest average salary and also cannot exceed the maximum benefit allowed by federal Internal Revenue Code.

Members may elect to withdraw their member contribution accounts upon termination of employment with all PERA employers; waiving rights to any lifetime retirement benefits earned. If eligible, the member may receive a match of either 50% or 100% on eligible amounts depending on when contributions were remitted to PERA, the date employment was

## NOTES TO THE FINANCIAL STATEMENTS June 30, 2025

terminated, whether 5 years of service credit has been obtained and the benefit structure under which contributions were made.

Upon meeting certain criteria, benefit recipients who elect to receive a lifetime retirement benefit generally receive post-retirement cost-of-living adjustments, referred to as annual increases in the C.R.S. Subject to the automatic adjustment provision (AAP) under C.R.S. § 24-51-413, eligible benefit recipients under the PERA benefit structure who began membership before January 1, 2007, and all eligible benefit recipients of the DPS benefit structure will receive the maximum annual increase (AI) or AI cap of 1.00% unless adjusted by the AAP. Eligible benefit recipients under the PERA benefit structure who began membership on or after January 1, 2007, will receive the lesser of an annual increase of the 1.00% AI cap or the average increase of the Consumer Price Index for Urban Wage Earners and Clerical Workers for the prior calendar year, not to exceed a determined increase that would exhaust 10% of PERA's Annual Increase Reserve (AIR) for the SCHDTF. The AAP may raise or lower the aforementioned AI cap by up to 0.25% based on the parameters specified in C.R.S. § 24-51-413.

Disability benefits are available for eligible employees once they reach five years of earned service credit and are determined to meet the definition of disability. The disability benefit amount is based on the lifetime retirement benefit formulas shown above considering a minimum 20 years of service credit, if deemed disabled.

Survivor benefits are determined by several factors, which include the amount of earned service credit, highest average salary of the deceased, the benefit structure(s) under which service credit was obtained, and the qualified survivor(s) who will receive the benefits.

Contributions provisions as of June 30, 2025. Eligible employees, of the District and the State are required to contribute to the SCHDTF at a rate set by Colorado statute. The contribution requirements are established under C.R.S. § 24-51-401, et seq and C.R.S. § 24-51-413. Eligible employees are required to contribute 11.00% of their PERA-includable salary during the period of July 1, 2024 through June 30, 2025. The employer contribution requirements are summarized in the table below:

|  | July 1, 2024<br>Through |
|--|-------------------------|
|  | June 30, 2025           |
| Employer Contribution Rate   | 11.40%                  |
| Amount of Employer Contribution apportioned to the Health Care Trust Fund as specified in C.R.S. § 24-51-208(1)(f) | (1.02)%                 |
| Amount Apportioned to the SCHDTF   | 10.38%                  |
| Amortization Equalization Disbursement (AED) as specified in C.R.S. § 24-51-411 <sup>1</sup>                       | 4.50%                   |
| Supplemental Amortization Equalization Disbursement (SAED) as specified in C.R.S. § 24-51-4111                     | 5.50%                   |
| Total Employer Contribution Rate to the SCHDTF   | 20.38%                  |

## NOTES TO THE FINANCIAL STATEMENTS June 30, 2025

Contribution rates for the SCHDTF are expressed as a percentage of salary as defined in C.R.S. § 24-51-101(42).

Employer contributions are recognized by the SCHDTF in the period in which the compensation becomes payable to the member and the District is statutorily committed to pay the contributions to the SCHDTF. Employer contributions recognized by the SCHDTF from the District were \$885,589 for the year ended June 30, 2025.

For purposes of GASB 68 paragraph 15, a circumstance exists in which a nonemployer contributing entity is legally responsible for making contributions to the SCHDTF and is considered to meet the definition of a special funding situation. As specified in C.R.S. § 24-51-414, the State is required to contribute \$225 million (actual dollars) direct distribution each year to PERA starting on July 1, 2018. For 2024, a portion of the direct distribution payment is allocated to the SCHDTF based on the proportionate amount of annual payroll of the SCHDTF to the total annual payroll of the SCHDTF, State Division Trust Fund, Judicial Division Trust Fund, and Denver Public Schools Division Trust Fund.

### Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

The net pension liability for the SCHDTF was measured as of December 31, 2024, and the total pension liability (TPL) used to calculate the net pension liability was determined by an actuarial valuation as of December 31, 2023. Standard update procedures were used to roll-forward the TPL to December 31,2024. The District's proportion of the net pension liability was based on District contributions to the SCHDTF for the calendar year 2024 relative to the total contributions of the participating employers and the State as a nonemployer contributing entity.

At June 30, 2025, the District reported a liability of \$12,263,943 for its proportionate share of the net pension liability that reflected and increase for support from the State as a nonemployer contributing entity. The amount recognized by the District as its proportionate share of the net pension liability, the related support from the State as a nonemployer contributing entity, and the total portion of the net pension liability that was associated with the District were as follows:

| Total  | \$<br>13,365,440 |
|--|------------------|
| The State's proportionate share of the net pension liability as a nonemployer contributing entity associated with the District | 1,101,497        |
| District's proportionate share of the net pension liability  | \$<br>12,263,943 |

At December 31, 2024, the District's proportion was .0710751388 percent, which was an increase of .0083 percent from its proportion measured as of December 31, 2023.

For the year ended June 30, 2025, the District recognized pension expense of \$260,985 and \$116,162 in revenue for support from the State as a nonemployer contributing entity. At June

#### NOTES TO THE FINANCIAL STATEMENTS June 30, 2025

30, 2025, the District reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

|   | Deferred Outflows of Resources |           | ed Inflows<br>esources |
|---|--------------------------------|-----------|------------------------|
| Difference between expected and actual experience   | \$                             | 694,489   |                        |
| Net difference between projected and actual earnings  |                                | 231,387   |                        |
| Changes in assumptions or other inputs  |                                | 91,944    |                        |
| Changes in proportion and differences between contributions recognized and proportionate share of contributions |                                |           | \$<br>108,922          |
| Contributions subsequent to the measurement date  |                                | 599,889   |                        |
| Total   | \$                             | 1,617,709 | \$<br>108,922          |

\$599,899 reported as deferred outflows of resources related to pensions, resulting from contributions subsequent to the measurement date, will be recognized as a reduction of the net pension liability in the year ended June 30, 2026. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

| Year ended June 30: |               |
|---------------------|---------------|
| 2026                | \$<br>863,115 |
| 2027                | 701,855       |
| 2028                | (501,013)     |
| 2029                | (155,059)     |

*Actuarial assumptions.* The TPL in the December 31, 2023 actuarial valuation was determined using the following actuarial assumptions and other inputs:

| Actuarial cost method | Entry Age |
|-----------------------|-----------|
| Price inflation       | 2.30%     |
| Real wage growth      | .70%      |

## NOTES TO THE FINANCIAL STATEMENTS June 30, 2025

| Wage inflation  | 3.00%          |
|---|----------------|
| Salary increases, including wage inflation  | 3.40% - 11.00% |
| Long-term investment Rate of Return, net of pension plan investment expenses, including price inflation | 7.25%          |
| Discount rate   | 7.25%          |

Post-retirement benefit increases:

PERA Benefit Structure hired prior to 1/1/07; and DPS Benefit Structure (compounded annually) 1.00%

PERA Benefit Structure hired after 12/31/06<sup>1</sup> Financed by the AIR

All mortality assumptions are developed on a benefit-weighted basis and apply generational mortality. Note that in all categories, displayed as follows, the mortality tables are generationally projected using scale MP-2019.

|  | <b>Mortality Table</b>             | Adjustments, as Applicable  |
|--|------------------------------------|---|
| Pre-Retirement                                 | PubT-2010<br>Employee              | N/A   |
| Post-Retirement (Retiree), Non-<br>Disabled    | PubT-2010<br>Healthy Retiree       | Males: 112% of the rates prior to age 80/ 94% of the rates age 80 and older Females: 83% of the rates prior to age 80/ 106% of the rates age 80 and older |
| Post-Retirement (Beneficiary),<br>Non-Disabled | Pub-2010<br>Contingent<br>Survivor | <b>Males</b> : 97% of the rates for all ages Females: 105% of the rates for all ages  |

The actuarial assumptions used in the December 31, 2023, valuation were based on the 2020 experience analysis, dated October 28, 2020, for the period January 1, 2016, through December 31, 2019. Revised economic and demographic assumptions were adopted by the PERA Board on November 20, 2020.

Based on the 2024 experience analysis, dated January 3, 2025, for the period January 1, 2020, to December 31, 2023, revised actuarial assumptions were adopted by PERA's Board on January 17, 2025, and were effective as of December 31, 2024. The following assumptions

<sup>1</sup> Post -retirement benefit increases are provided by the AIR, accounted separately within each Division Trust Fund, and subject to moneys being available; therefore, liabilities related to increases for members of these benefit tiers can never exceed available assets.

### NOTES TO THE FINANCIAL STATEMENTS June 30, 2025

were reflected in the roll forward calculation of the total pension liability from December 31, 2023, to December 31, 2024.

Salary increases, including wage inflation: 4.00%-13.40%

Salary scale assumptions were altered to better reflect actual experience.

Rates of termination/withdrawal, retirement, and disability were revised to more closely reflect actual experience.

The estimated administrative expense as a percentage of covered payroll was increased from 0.40% to 0.45%.

The adjustments for credibility applied to the Pub-2010 mortality tables for active and retired lives, including beneficiaries, were updated based on the experience. All mortality assumptions are developed on a benefit-weighted basis. Note that in all categories, displayed as follows, the mortality tables are generationally projected using the 2024 adjusted MP-2021 projection scale.

|  | Mortality Table                    | Adjustments, as Applicable  |

The long-term expected return on plan assets is monitored on an ongoing basis and reviewed as part of periodic experience studies prepared every four years, and asset/liability studies, performed every three to five years for PERA. The most recent analyses were outlined in the 2024 Experience Study report dated January 3, 2025.

Several factors were considered in evaluating the long-term rate of return assumption, including long-term historical data, estimates inherent in current market data, and a log-normal distribution analysis in which best-estimate ranges of expected future real rates of return (expected return, net of investment expenses and inflation) were developed by the investment consultant for each major asset class. These ranges were combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and then adding expected inflation.

### NOTES TO THE FINANCIAL STATEMENTS June 30, 2025

The PERA Board first adopted the 7.25% long-term expected rate of return as of November 18, 2016. Following an asset/liability study, the Board reaffirmed the assumed rate of return at the Board's November 15, 2019, meeting, and again at the Board's September 20, 2024 meeting. As of the most recent reaffirmation of the long-term rate of return, the target asset allocation and best estimates of geometric real rates of return for each major asset class are summarized in the table as follows:

| Asset Class               | Target<br>Allocation | 30 Year Expected<br>Geometric Real Rate |
|---------------------------|----------------------|---|
| Global Equity             | 51.00%               | 5.00%                                   |
| Fixed Income              | 23.00%               | 2.60%                                   |
| Private Equity            | 10.00%               | 7.60%                                   |
| Real Estate               | 10.00%               | 4.10%                                   |
| Alternatives <sup>1</sup> | 6.00%                | 5.20%                                   |
| Total                     | 100.00%              |   |

*Note:* In setting the long-term expected rate of return, projections employed to model future returns provide a range of expected long-term returns that, including expected inflation, ultimately support a long-term expected rate of return assumption of 7.25%.

Discount rate. The discount rate used to measure TPL was 7.25%. The projection of cash flows used to determine the discount rate applied the actuarial cost method and assumptions shown above. In addition, the following methods and assumptions were used in the projection of cash flows:

Total covered payroll for the initial projection year consisted of the covered payroll of the active membership present on the valuation date and the covered payroll of future plan members assumed to be hired during the year. In subsequent years, total covered payroll was assumed to increase annually at a rate of 3.00%.

Employee contributions were assumed to be made at the current member contribution rates in effect for each year, including the scheduled increases in SB 18-200 and required adjustments resulting from the 2018 and 2020 AAP assessments. Employee contributions for future plan members were used to reduce the estimated amount of total service costs for future plan members.

Employer contributions were assumed to be made at rates equal to the fixed statutory rates specified in law for each year, including the scheduled increase in SB 18-200, and required adjustments resulting from the 2018 and 2020 AAP assessments. Employer contributions also include the current and estimated future AED and SAED, until the actuarial value funding ratio reaches 103%, at which point, the AED and SAED will each drop 0.50 percent every year until they are zero. Additionally, estimated employer contributions included reductions for the funding of the AIR and retiree health care benefits. For future plan members, employer contributions were further reduced by the estimated amount of total service costs for future plan members not financed by their member contributions.

### NOTES TO THE FINANCIAL STATEMENTS June 30, 2025

As specified in law, the State, as a nonemployer contributing entity, will provide an annual direct distribution of \$225 million (actual dollars), commencing July 1, 2018, that is proportioned between the State, School, Judicial, and DPS Division Trust Funds based upon the covered payroll of each Division. The annual direct distribution ceases when all Division Trust Funds are fully funded.

Employer contributions and the amount of total service costs for future plan members were based upon a process used by the plan to estimate future actuarially determined contributions assuming an analogous future plan member growth rate.

The AIR balance was excluded from the initial FNP, as, per statute, AIR amounts cannot be used to pay benefits until transferred to either the retirement benefits reserve of the survivor benefits reserve, as appropriate. AIR transfers to the fiduciary net position and the subsequent AIR benefit payments were estimated and included in the projections.

Benefit payments and contributions were assumed to be made at the middle of the year.

Based on the above assumptions and methods, the projection test indicates the SCHDTF's FNP was projected to be available to make all projected payments of current members. Therefore, the long-term expected rate of return of 7.25% on pension plan investments was applied to all periods of projected benefit payments to determine the TPL. The discount determination does not use the municipal bond index rate, and therefore, the discount rate is 7.25%. There was no change in the discount rate from the prior measurement date.

Sensitivity of the District's proportionate share of the net pension liability to changes in the discount rate. The following presents the proportionate share of the net pension liability calculated using the discount rate of 7.25%, as well as what the proportionate share of the net pension liability would be if it were calculated using a discount rate that is 1-percentage-point lower (6.25%) or 1-percentage-point higher (8.25%) than the current rate:

|  | 1%           | Current      | 1%          |
|--|--------------|--------------|-------------|
|  | Decrease     | Discount     | Increase    |
|  | (6.25%)      | Rate (7.25%) | (8.25%)     |
| Proportionate share of the net pension liability | \$16,627,065 | \$12,263,943 | \$8,609,219 |

Pension plan fiduciary net position. Detailed information about the SCHDTF's fiduciary net position is available in PERA's comprehensive annual financial report which can be obtained at <a href="https://www.copera.org/investments/pera-financial-reports">www.copera.org/investments/pera-financial-reports</a>.

### 6. Defined Contribution Pension Plan

**Voluntary Investment Program** 

### NOTES TO THE FINANCIAL STATEMENTS June 30, 2025

Plan Description - Employees of the District that are also members of the SCHDTF may voluntarily contribute to the Voluntary Investment Program, an Internal Revenue Code Section 401(k) defined contribution plan administered by PERA. Title 24, Article 51, Part 14 of the C.R.S, as amended, assigns the authority to establish the Plan provisions to the PERA Board of Trustees. PERA issues a publicly available comprehensive annual financial report for the Plan. That report can be obtained at <a href="https://www.copera.org/investments/pera-financial-reports">www.copera.org/investments/pera-financial-reports</a>.

Funding Policy – The Voluntary Investment Program is funded by voluntary member contributions up to the maximum limits set by the Internal Revenue Service, as established under Title 24, Article 51, Section 1402 of the C.R.S., as amended. The District has not agreed to match employee contributions. Employees are immediately vested in their own contributions, employer contributions and investment earnings. For the year ended June 30, 2025, program members contributed \$30,507 to the Voluntary Investment Program.

### 7. Other Post-Employment Benefits

**Plan description**- Eligible employees of the District are provided with OPEB through the HCTF—a cost-sharing multiple-employer defined benefit OPEB plan administered by PERA. The HCTF is established under Title 24, Article 51, Part 12 of the Colorado Revised Statutes (C.R.S.), as amended, and sets forth a framework that grants authority to the PERA Board to contract, self-insure, and authorize disbursements necessary in order to carry out the purposes of the PERACare program, including the administration of the premium subsidies. Colorado State law provisions may be amended from time to time by the Colorado General Assembly. PERA issues a publicly available annual comprehensive financial report (AFCR) that can be obtained at <a href="https://www.copera.org/forms-resources/financial-reports-and-studies">www.copera.org/forms-resources/financial-reports-and-studies</a>.

Benefits provided. The HCTF provides a health care premium subsidy to eligible participating PERA benefit recipients and retirees who choose to enroll in one of the PERA health care plans, however, the subsidy is not available if only enrolled in the dental and/or vision plan(s). The health care premium subsidy is based upon the benefit structure under which the member retires and the member's years of service credit. For members who retire having service credit with employers in the Denver Public Schools (DPS) Division and one or more of the other four Divisions (State, School, Local Government and Judicial), the premium subsidy is allocated between the HCTF and the Denver Public Schools Health Care Trust Fund (DPS HCTF). The basis for the amount of the premium subsidy funded by each trust fund is the percentage of the member contribution account balance from each division as it relates to the total member contribution account balance from which the retirement benefit is paid.

C.R.S. § 24-51-1202 *et seq.* specifies the eligibility for enrollment in the health care plans offered by PERA and the amount of the premium subsidy. The law governing a benefit recipient's eligibility for the subsidy and the amount of the subsidy differs slightly depending under which benefit structure the benefits are calculated. All benefit recipients under the PERA benefit structure and all retirees under the DPS benefit structure are eligible for a premium subsidy, if enrolled in a health care plan under PERACare. Upon the death of a DPS benefit structure retiree, no further subsidy is paid.

### NOTES TO THE FINANCIAL STATEMENTS June 30, 2025

Enrollment in the PERACare is voluntary and is available to benefit recipients and their eligible dependents, certain surviving spouses, and divorced spouses and guardians, among others. Eligible benefit recipients may enroll into the program upon retirement, upon the occurrence of certain life events, or on an annual basis during an open enrollment period.

### PERA Benefit Structure

The maximum service-based premium subsidy is \$230 per month for benefit recipients who are under 65 years of age and who are not entitled to Medicare; the maximum service-based subsidy is \$115 per month for benefit recipients who are 65 years of age or older or who are under 65 years of age and entitled to Medicare. The maximum service-based subsidy, in each case, is for benefit recipients with retirement benefits based on 20 or more years of service credit. There is a 5% reduction in the subsidy for each year less than 20. The benefit recipient pays the remaining portion of the premium to the extent the subsidy does not cover the entire amount.

For benefit recipients who have not participated in Social Security and who are not otherwise eligible for premium-free Medicare Part A for hospital-related services, C.R.S. § 24-51-1206(4) provides an additional subsidy. According to the statute, PERA cannot charge premiums to benefit recipients without Medicare Part A that are greater than premiums charged to benefit recipients with Part A for the same plan option, coverage level, and service credit. Currently, for each individual PERACare enrollee, the total premium for Medicare coverage is determined assuming plan participants have both Medicare Part A and Part B and the difference in premium cost is paid by the HCTF or the DPS HCTF on behalf of benefit recipients not covered by Medicare Part A.

Contributions. Pursuant to Title 24, Article 51, Section 208(1)(f) of the C.R.S., as amended, certain contributions are apportioned to the HCTF. PERA-affiliated employers of the State, School, Local Government, and Judicial Divisions are required to contribute at a rate of 1.02% of PERA-includable salary into the HCTF.

Employer contributions are recognized by the HCTF in the period in which the compensation becomes payable to the member and the District is statutorily committed to pay the contributions. Employer contributions recognized by the HCTF from the District were \$56,183 for the year ended June 30, 2025.

### OPEB Liabilities, OPEB Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to OPEB

At June 30, 2025 the District reported a liability of \$217,597 for its proportionate share of the net OPEB liability. The net OPEB liability for the HCTF was measured as of December 31, 2024, and the total OPEB liability (TOL) used to calculate the net OPEB liability was determined by an actuarial valuation as of December 31, 2023. Standard update procedures were used to roll-forward the TOL to December 31, 2024. The District's proportion of the net OPEB liability was based on the District's contributions to the HCTF for the calendar year 2024 relative to the total contributions of participating employers to the HCTF.

### NOTES TO THE FINANCIAL STATEMENTS June 30, 2025

At December 31, 2024, the District proportion was .04551 percent, which was a decrease of .0019 percent from its proportion measured as of December 31, 2023.

For the year ended June 30, 2025, the District recognized OPEB expense of \$(83,432). At June 30, 2025, the District reported deferred outflows of resources and deferred inflows of resources related to OPEB from the following sources:

|   | Deferred Outflows of Resources |        | Deferred Inflo |         |
|---|--------------------------------|--------|----------------|---------|
| Difference between expected and actual experience   |                                |        | \$             | 47,997  |
| Changes in assumptions  | \$                             | 2,495  |                | 69,555  |
| Net difference between projected and actual earnings on pension plan investments                                |                                | 738    |                |         |
| Changes in proportion and differences between contributions recognized and proportionate share of contributions |                                |        |                | 8,081   |
| Contributions subsequent to the measurement date  |                                | 30,023 |                |         |
| Total   | \$                             | 33,256 | \$             | 125,633 |

\$30,023 reported as deferred outflows of resources related to OPEB, resulting from contributions subsequent to the measurement date, will be recognized as a reduction of the net OPEB liability in the year ended June 30, 2026. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to OPEB will be recognized in OPEB expense as follows:

| Year ended June 30: |             |
|---------------------|-------------|
| 2026                | \$ (36,709) |
| 2027                | (15,613)    |
| 2028                | (24,623)    |
| 2029                | (20,846)    |
| 2030                | (15,880)    |
| 2031                | (8,729)     |

### NOTES TO THE FINANCIAL STATEMENTS June 30, 2025

Actuarial assumptions. The TOL in the December 31, 2023 actuarial valuation was determined using the following actuarial cost method, actuarial assumptions and other inputs:

| Actuarial cost method                               | Entry age                          |
|---|------------------------------------|
| Price inflation                                     | 2.30%                              |
| Real wage growth                                    | 0.70%                              |
| Wage inflation                                      | 3.00%                              |
| Salary increases, including wage inflation          | 3.40% -11.00%                      |
| Long-term investment rate of return, net of OPEB    |                                    |
| plan investment expenses, including price inflation | 7.25%                              |
| Discount rate                                       | 7.25%                              |
| Health care cost trend rates                        |                                    |
| PERA benefit structure:                             |                                    |
| Service-based premium subsidy                       | 0.00%                              |
| PERACare Medicare plans                             | 16.00% in 2024, then 6.75% in      |
|   | 2025, gradually decreasing         |
|   | to 4.50% in 2034                   |
|   |                                    |
| MAPD PPO #2   | 105% in 2024, then 8.55% in        |
|   | 2025 gradually decreasing to 4.50% |
|   | in 2034                            |
|   |                                    |
| Medicare Part A premiums                            | 3.50% in 2024,                     |
|   | gradually increasing to 4.50%      |
|   | in 2033                            |

As of the December 31, 2024, measurement date, the FNP and related disclosure components for the HCTF reflect additional payments related to the disaffiliation of Tri-County Health Department (Tri-County Health) as a PERA-affiliated employer, effective December 31, 2022. The additional employer disaffiliation payment allocations to the HCTF and Local Government Division Trust Fund were \$0.020 million and \$0.486 million, respectively.

Each year the per capita health care costs are developed by plan option. As of the December 31, 2023 actuarial valuation, costs are based on 2024 premium rates for the UnitedHealthcare Medicare Advantage Prescription Drug (MAPD) PPO plan #1, the UnitedHealthcare MAPD PPO plan #2, and the Kaiser Permanente MAPD HMO plan. Actuarial morbidity factors are then applied to estimate individual retiree and spouse costs by age, gender, and health care cost trend. This approach applies for all members and is adjusted accordingly for those not eligible for premium-free Medicare Part A for the PERA benefit structure.

| Age-Related Morb | lity Assump | tions |
|------------------|-------------|-------|
|------------------|-------------|-------|

|------------|------------------------|---------|--|---------|--|------------|
|            | Male                   | Female  | Male   | Female  | Male   | Female     |
| 65         | \$6,536                | \$5,429 | \$4,241  | \$3,523 | \$7,063  | \$5,866    |
| 70         | \$7,341                | \$6,073 | \$4,764  | \$3,941 | \$7,933  | \$6,563    |
| 75         | \$8,110                | \$6,385 | \$5,262  | \$4,143 | \$8,763  | \$6,900    |

The 2024 Medicare Part A premium is \$505 per month.

All costs are subject to the health care cost trend rates, as discussed below.

Health care cost trend rates reflect the change in per capita health costs over time due to factors such as medical inflation, utilization, plan design, and technology improvements. For the PERA benefit structure, health care cost trend rates are needed to project the future costs associated with providing benefits to those PERACare enrollees not eligible for premium-free Medicare Part A.

Health care cost trend rates for the PERA benefit structure are based on published annual health care inflation surveys in conjunction with actual plan experience (if credible), building block models, and industry methods developed by health plan actuaries and administrators. In addition, projected trends for the Federal Hospital Insurance Trust Fund (Medicare Part A premiums) provided by the Centers for Medicare & Medicaid Services are referenced in the development of these rates. PERACare Medicare plan rates are applied where members have no premium-free Part A and where those premiums are already exceeding the maximum subsidy. MAPD PPO #2 has a separate trend because the first year rates are still below the maximum subsidy and to reflect the estimated impact of the Inflation Reduction Act for that plan option.

The PERA benefit structure health care cost trend rates that were used to measure the TOL are summarized in the table below:

### NOTES TO THE FINANCIAL STATEMENTS June 30, 2025

| Year  | PERACare<br>Medicare<br>Plans <sup>1</sup> | MAPD PPO<br>#21 | Medicare Part A Premiums |
|-------|--|-----------------|--------------------------|
| 2024  | 16.00%                                     | 105.00%         | 3.50%                    |
| 2025  | 6.75%                                      | 8.55%           | 3.75%                    |
| 2026  | 6.50%                                      | 8.10%           | 3.75%                    |
| 2027  | 6.25%                                      | 7.65%           | 4.00%                    |
| 2028  | 6.00%                                      | 7.20%           | 4.00%                    |
| 2029  | 5.75%                                      | 6.75%           | 4.25%                    |
| 2030  | 5.50%                                      | 6.30%           | 4.25%                    |
| 2031  | 5.25%                                      | 5.85%           | 4.25%                    |
| 2032  | 5.00%                                      | 5.40%           | 4.25%                    |
| 2033  | 4.75%                                      | 4.95%           | 4.50%                    |
| 2034+ | 4.50%                                      | 4.50%           | 4.50%                    |

Increase in 2024 trend rates due to the effect of the Inflation Reduction Act

Mortality assumptions used in the December 31, 2023, valuation for the Division Trust Funds as shown in the following table, reflect generational mortality and were applied, as applicable, in the December 31, 2023, valuation for the HCTF, but developed using a headcount-weighted basis. Note that in all categories, displayed as follows, the mortality tables are generationally projected using scale MP-2019. Affiliated employers of the State, School, Local Government, and Judicial Divisions participate in the HCTF.

| Pre-Retirement  | Mortality Table                        | Adjustments, as Applicable  |
|---|--|---|
| State and Local Government Divisions (members other than Safety Officers) | PubG-2010 Employee                     | N/A   |
| Safety Officers   | PubS-2010 Employee                     | N/A   |
| School Division   | PubT-2010 Employee                     | N/A   |
| Judicial Division   | PubG-2010(A) Above-<br>Median Employee | N/A   |
| Post-Retirement (Retiree), Non-<br>Disabled                               | Mortality Table                        | Adjustments, as Applicable  |
| State and Local Government Divisions (members other than Safety Officers) | PubG-2010 Healthy<br>Retiree           | Males: 94% of the rates prior to age 80/90% of the rates age 80 and older Females: 87% of the rates prior to age 80/107% of the rates age 80 and older  |
| Safety Officers   | PubS-2010 Healthy<br>Retiree           | N/A   |
| School Division   | PubT-2010 Healthy<br>Retiree           | Males: 112% of the rates prior to age 80/94% of the rates age 80 and older Females: 83% of the rates prior to age 80/106% of the rates age 80 and older |

| Disabled  Members other than Safety Officers    | Mortality Table  PubNS-2010 Disabled Retiree  | Adjustments, as Applicable  99% of the rates for all ages                                    |

The following health care costs assumptions were updated and used in the roll-forward calculation for the HCTF:

- Per capita health care costs in effect as of the December 31, 2023, valuation date for those PERACare enrollees under the PERA benefit structure who are expected to be age 65 and older and are not eligible for premium-free Medicare Part A benefits were updated to reflect costs for the 2024 plan year.
- The health care cost trend rates applicable to health care premiums were revised to reflect
  the current expectation of future increases in those premiums. A separate trend rate
  assumption set was added for MAPD PPO #2 as the first-year rate is still below the
  maximum subsidy and also the assumption set reflects the estimated impact of the Inflation
  Reduction Act for that plan option.
- The Medicare health care plan election rate assumptions were updated effective as of the December 31, 2023, valuation date based on an experience analysis of recent data.

The actuarial assumptions used in the December 31, 2023, valuations were based on the 2020 experience analysis, dated October 28, 2020, and November 4, 2020, for the period January 1, 2016, through December 31, 2019. Revised economic and demographic assumptions were adopted by PERA's Board on November 20, 2020.

Based on the 2024 experience analysis, dated January 3, 2025, for the period January 1, 2020, to December 31, 2023, revised actuarial assumptions were adopted by PERA's Board on January 17, 2025, and were effective as of December 31, 2024. The following assumptions were reflected in the roll forward calculation of the total OPEB liability from December 31, 2023, to December 31, 2024.

### NOTES TO THE FINANCIAL STATEMENTS June 30, 2025

|   | State Division | School Division | Local<br>Government<br>Division | Judicial<br>Division |
|---|----------------|-----------------|---------------------------------|----------------------|
| Salary increases, including wage inflation: |                |                 |                                 |                      |
| Members other than Safety Officers          | 2.70%-13.30%   | 4.00%-13.40%    | 3.40%-13.00%                    | 2.30%-4.70%          |
| Safety Officers                             | 3.20%-16.30%   | N/A             | 3.20%-16.30%                    | N/A                  |

The following health care costs assumptions were used in the roll forward calculation for the HCTF:

- Salary scale assumptions were altered to better reflect actual experience.
- Rates of termination/withdrawal, retirement, and disability were revised to more closely reflect actual experience.
- Participation rates were reduced.
- MAPD premium costs are no longer age graded.

| Plan              | With            | Without         |
|-------------------|-----------------|-----------------|
|                   | Medicare Part A | Medicare Part A |
| MAPD PPO #1       | \$1,824         | \$6,972         |
| MAPD PPO #2       | 624             | 4,524           |
| MAPD HMO (Kaiser) | 2,040           | 7,596           |

The adjustments for credibility applied to the Pub-2010 mortality tables for active and retired lives, including beneficiaries, were updated based on the experience. Note that in all categories, the mortality tables are generationally projected using the 2024 adjusted MP-2021 project scale. These assumptions updated for the Division Trust Funds, were also applied in the roll forward calculations for the HCTF using a headcount-weighted basis. Affiliated employers of the State, School, Local Government, and Judicial Divisions participate in the HCTF.

The actuarial assumptions pertaining to per capita health care costs and their related trend rates are analyzed annually and updated, as appropriate, by the PERA Board's actuary.

The long-term expected return on plan assets is reviewed as part of regular experience studies prepared every four to five years for PERA. Recently this assumption has been reviewed more frequently. The most recent analyses were outlined in the 2024 Experience Study report dated January 3, 2025.

Several factors are considered in evaluating the long-term rate of return assumption, including long-term historical data, estimates inherent in current market data, and a log-normal distribution analysis in which best-estimate ranges of expected future real rates of return (expected return, net of investment expense and inflation) were developed for each major asset class. These ranges were combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentages and then adding expected inflation.

The PERA Board first adopted the 7.25% long-term expected rate of return as of November 18, 2016. Following an asset/liability study, the Board reaffirmed the assumed rate of return at the Board's November 15, 2019, meeting, to be effective January 1, 2020. As of the most recent reaffirmation of the long-term rate of return, the target asset allocation and best estimates of geometric real rates of return for each major asset class are summarized in the table as follows:

|                           | Target     | 30 Year Expected Geometri |  |
|---------------------------|------------|---------------------------|--|
| Asset Class               | Allocation | Real Rate of Return       |  |
| Global Equity             | 51.00%     | 5.00%                     |  |
| Fixed Income              | 23.00%     | 2.60%                     |  |
| Private Equity            | 10.00%     | 7.60%                     |  |
| Real Estate               | 10.00%     | 4.10%                     |  |

### NOTES TO THE FINANCIAL STATEMENTS June 30, 2025

| Total  | 100.00%  |  |
|--------|----------|--|
| i Otai | 100.0070 |  |

Note: In setting the long-term expected rate of return, projections employed to model future returns provide a range of expected long-term returns that, including expected inflation, ultimately support a long-term expected rate of return assumption of 7.25%.

Sensitivity of the District's proportionate share of the net OPEB liability to changes in the Health Care Cost Trend Rates. The following presents the net OPEB liability using the current health care cost trend rates applicable to the PERA benefit structure, as well as if it were calculated using health care cost trend rates that are one percentage point lower or one percentage point higher than the current rates:

|                                       | 1% Decrease in<br>Trend Rates | Current Trend<br>Rates | 1% Increase in<br>Trend Rates |
|---------------------------------------|-------------------------------|------------------------|-------------------------------|
| Initial PERACare Medicare trend rate  | 5.75%                         | 6.75%                  | 7.75%                         |
| Ultimate PERACare Medicare trend rate | 3.50%                         | 4.50%                  | 5.50%                         |

| Initial Medicare Part A trend rate    | 2.75%                         | 3.75%                  | 4.75%                         |
| Ultimate Medicare Part A trend rate   | 3.50%                         | 4.50%                  | 5.50%                         |
| Net OPEB Liability                    | 211,734                       | 217,597                | 224,232                       |

Discount rate. The discount rate used to measure the TOL was 7.25%. The basis for the projection of liabilities and the FNP used to determine the discount rate was an actuarial valuation performed December 31, 2023, and the financial status of the HCTF as of the current measurement date (December 31, 2024). In addition, the following methods and assumptions were used in the projection of cash flows:

- Updated health care cost trend rates for Medicare Part A premiums as of the December 31, 2024, measurement date.
- Total covered payroll for the initial projection year consists of the covered payroll of the active membership present on the valuation date and the covered payroll of future plan members assumed to be hired during the year. In subsequent projection years, total covered payroll was assumed to increase annually at a rate of 3.00%.
- Employer contributions were assumed to be made at rates equal to the fixed statutory rates specified in law and effective as of the measurement date.
- Employer contributions and the amount of total service costs for future plan members were based upon a process to estimate future actuarially determined contributions assuming an analogous future plan member growth rate.
- Estimated transfers of dollars into the HCTF representing a portion of purchase serviceagreements intended to cover the costs associated with OPEB benefits.

### NOTES TO THE FINANCIAL STATEMENTS June 30, 2025

- Benefit payments and contributions were assumed to be made at the middle of the year.
- As of the December 31, 2024, measurement date, the FNP and related disclosure components for the HCTF reflect additional payments related to the disaffiliation of Tri-County Health Department as a PERA-affiliated employer, effective December 31, 2022. The additional employer disaffiliation payment allocations to the HCTF and Local Government Division Trust Fund were \$0.020 million and \$0.486 million, respectively.

Based on the above assumptions and methods, the HCTF's FNP was projected to make all projected future benefit payments of current members. Therefore, the long-term expected rate of return of 7.25% on OPEB plan investments was applied to all periods of projected benefit payments to determine the TOL. The discount rate determination does not use the municipal bond index rate, and therefore, the discount rate is 7.25%. There was no change in the discount rate from the prior measurement date.

Sensitivity of the District's proportionate share of the net OPEB liability to changes in the discount rate. The following presents the proportionate share of the net OPEB liability calculated using the discount rate of 7.25%, as well as what the proportionate share of the net OPEB liability would be if it were calculated using a discount rate that is 1-percentage-point lower (6.25%) or 1-percentage-point higher (8.25%) than the current rate:

|                                     | 1%       | Current       | 1%       |
|-------------------------------------|----------|---------------|----------|
|                                     | Decrease | Discount Rate | Increase |
|                                     | (6.25%)  | (7.25%)       | (8.25%)  |
| Proportionate share of the net OPEB | 266,668  | 217,597       | 175,291  |
| liability                           |          |               |          |

*OPEB plan fiduciary net position.* Detailed information about the HCTF's FNP is available in PERA's comprehensive annual financial report which can be obtained at<u>www.copera.org/forms-resources/financial-reports-and-studies.</u>

**8. Accrued Salaries and Benefits** – Certified instructors of the District are contracted for nine months annually between Labor Day and June 1. These instructors, while only working nine months, are paid for their services in twelve equal monthly installments. On June 30 of each year they have completed their entire contract, but have only received 10/12 of the related compensation with the difference to be paid over the summer break. The difference, totaling \$974,591 is reflected as an accrued expense at June 30.

### 9. General Long Term Debt-

**2013 General Obligation Bonds Payable-** In November of 2012, the voters of the District approved the issuance of \$3,470,000 of general obligation bonds. The bonds were issued January 9, 2013 for the purpose of providing matching money for the State of Colorado Building Excellent Schools Today (BEST) grant program. The proceeds, along with the grant funds will be used for the construction of District facilities. The bonds are payable in annual installments and bear interest ranging from 2% to 3%. The repayment of the bonds is recorded in the Debt Service Fund.

### NOTES TO THE FINANCIAL STATEMENTS June 30, 2025

The annual requirements to amortize the Series 2013 bonds outstanding at June 30, 2025 are as follows:

| Date             | Principal |           | Interest |         | <br>Total       |
|------------------|-----------|-----------|----------|---------|-----------------|

**2024 General Obligation Bonds Payable-** In November of 2024, the voters of the District approved the issuance of \$10,110,000 of general obligation bonds. The bonds were issued for the purpose of providing matching money for the State of Colorado Building Excellent Schools Today (BEST) grant program. The proceeds, along with the grant funds will be used for the major renovation and construction of District facilities. The bonds are payable in annual installments and bear interest ranging from 5.0% to 5.5%. The repayment of the bonds is accounted for in the Debt Service Fund.

The annual requirements to amortize the Series 2024 bonds outstanding at June 30, 2025 are as follows:

| Date             | Principal    | Interest        |     | Total     |
|------------------|--------------|-----------------|-----|-----------|
| December 1, 2025 | \$ 165,000   | \$<br>410,780   | \$  | 575,780   |
| December 1, 2026 | 50,000       | 527,550         |     | 577,550   |
| December 1, 2027 | 55,000       | 525,050         |     | 580,050   |
| December 1, 2028 | 55,000       | 522,300         |     | 577,300   |
| December 1, 2029 | 60,000       | 519,550         |     | 579,550   |
| 2030-2034        | 930,000      | 2,537,000       |     | 3,467,000 |

| 2045-2049        | 3,720,000    | 635,800         |     | 4,355,800 |
| Total            | \$10,110,000 | \$<br>9,324,980 | \$1 | 9,434,980 |
|                  |              |                 |     |           |

### NOTES TO THE FINANCIAL STATEMENTS June 30, 2025

Changes in Long-Term Debt- A summary of changes in general long-term debt follows:

| Description   | <br>Balance<br>Beginning | Issued        | <br>Retired     | Balance<br>Ending          |
|---|--------------------------|---------------|-----------------|----------------------------|
| General Obligation Bonds:<br>2013 Series<br>2024 Series | \$<br>2,295,000          | \$ 10,110,000 | \$<br>(225,000) | \$ 2,070,000<br>10,110,000 |
|   | \$<br>2,295,000          | \$ 10,110,000 | \$<br>(225,000) | \$ 12,180,000              |

### **10. Inter-fund Operating Transfers –** consist of the following:

|                                       | Tr | ansfer in | Tra | ansfer out |
|---------------------------------------|----|-----------|-----|------------|
| General Fund<br>Capital Projects Fund | \$ | 540,000   | \$  | 540,000    |
| Total                                 | \$ | 540,000   | \$  | 540,000    |

The transfer was made for the purpose of subsidizing the Capital Projects Fund.

11. Fund Balance Restrictions and Assignments – Restricted indicates that a portion of the fund balance can only be spent for specific purposes because of state or federal laws, or externally imposed conditions by grantors or creditors. Assigned indicates amounts that are designated for a specific purpose by the Board of Education but are not spendable until appropriated. The District uses the following restrictions and assignments:

### Non-spendable

**Inventory-** indicates that the portion of fund balance represented by inventories is not available for appropriation and expenditure at the balance sheet date. Non-spendable fund balance related to inventory consists of \$8,703 in the Lunch Fund.

### Restricted

**TABOR** – indicates that a portion of the fund balance has been segregated for expenditures for declared emergencies only. Fund balance restricted for TABOR consists of \$350,000 in the General Fund.

**Debt Service-** indicates the amount of fund balance that is restricted for the repayment of the District's outstanding general obligation bonds. Fund balance restricted for debt service consists of \$1,136,936 in the Debt Service Fund.

### NOTES TO THE FINANCIAL STATEMENTS June 30, 2025

**Food Service-**indicates the amount of fund balance that is restricted for food service operations within the District. Fund balance restricted for food service consists of \$58,560 in the Lunch Fund.

**Student Activities**-indicates that the fund balance in the Student Activity Fund is restricted for student activities within the District. Fund balance restricted for student activities consists of \$152,048 in the Student Activity Fund.

**School Construction-** indicates that the fund balance in the Building Fund is restricted for the construction and renovation of District facilities pursuant to the issuance of general obligation bonds related to the BEST grant program. Fund balance restricted for construction consists of \$10,722,163 in the Building Fund.

### **Assigned**

**Assigned for future expenditures** – indicates anticipated fund balance available for appropriation in the next budget year. Fund balance assigned for future expenditures consists of \$5,370,033 in the General Fund and \$231,820 in the Capital Projects Fund.

12. Risk Management – The District is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters. The District is a member of the Colorado School Districts Self-Insurance Pool (The Pool). The Pool was formed in 1981 to provide 93 member school districts and related educational facilities with defined property and liability coverage through joint self-insurance and excess insurance. The District pays an annual premium for its general insurance coverage. The Pool is self-sustaining through member premiums and obtains excess insurance to limit per occurrence exposure to \$250,000.

The District continues to carry commercial insurance for all other risks of loss including worker's compensation and employee health and accident insurance. There have been no settled claims that have exceeded insurance coverage in any of the past three fiscal years. There have been no significant decreases in insurance coverage from the prior year.

- 13. Tax, Spending, and Debt Limitations Colorado Voters passed an amendment to the State Constitution, Article X, Section 20, which has several limitations, including revenue raising, spending abilities, and other specific requirements of state and local governments. The people of the District voted to authorize the spending of all monies in existing funds and to collect, retain, and expend the full revenue, including state grants and taxes, generated during fiscal year 1998 and for each subsequent year regardless of any limitation contained in Article X, Section 20, of the Colorado Constitution. The Amendment is complex and subject to judicial interpretation. The District believes it is in compliance with all other requirements of the amendment. However, the District has made certain interpretations of the amendment's language in order to determine its compliance.
- **14. Commitments and Contingent Liabilities** There were no commitments or contingent liabilities at June 30.

### Notes to Required Supplementary Information

# Note 1—Significant Changes in Plan Provisions Affecting Trends in Actuarial Information

2023 Changes in Plan Provisions Since 2022

Senate Bill (SB) 23-056, enacted and effective June 2, 2023, intended to recompense PERA for the remaining portion of the \$225 million direct distribution originally schedule for receipt July 1, 2020, suspended due to the enactment of House Bill (HB) 20-1379, but not fully repaid through the provisions within HB 22-1029. Pursuant to SB 23-056, the State Treasurer issued a warrant consisting of the balance of the PERA Payment Cash Fund, created in §24-51416, plus \$10 million from the General Fund, totaling \$14.561 million.

As of the December 31, 2023, measurement date, the total pension liability (TPL) recognizes the change in the default method applied for granting service accruals for certain members, from a "12-pay" method to a "non-12-pay" method. The default service accrual method for positions with an employment pattern of a least eight months but fewer than twelve months (including, but not imited to positions in the School and DPS Divisions) receive a higher ratio of service credit for each month worked, up to a maximum of 12 months of service credit per year

# Note 2- Significant Changes in Assumptions or Other Inputs Affecting Trends in Actuarial Information

2024 Changes in Assumptions or Other Inputs Since 2023

Salary scale assumptions were altered to better reflect actual experience

The Pub-2010 Public Retirement Plans Mortality base tables were retained for purposes of active, retired, disabled, and beneficiary lives, with revised adjustment for credibility Rates of termination/withdrawl, retirement, and disability were revised to more closely reflect actual experience

and gender, where applicable. In addition, the applied generational projection scale was updated to the 2024 adjusted scale MP-2021.

The estimated administrative expense as a percentage of covered payroll was increased from 0.40% to 0.45%

### Subsequent Events

method to allocate the direct distribution if the allocation, based on the reported payroll of each participating division, results in an AAP assessment ratio below the 98% benchmark. Officer Training and Support Fund and, at that time, will be allocated to the appropriate Division Trust Fund(s) within PERA . SB-25-310 also allows for an alternative actuarial SB-25-310, enacted June 2, 2025, and effective immediately, allows PERA to accept a series of warrants from the State Treasurer totaling \$500 million (actual dollars) on or after July 1, 2025 and before October 1, 2025. These dollars are to be proportioned over time to replace reductions to future direct distributions intended to fund the Peace

Notes to Required Supplementary Information

## Note 1—Significant Changes in Plan Provisions Affecting Trends in Actuarial Information

2024 Changes in Plan Provisions Since 2023

As of athe December 31, 2024 measurement date, the FNP and related dislosure components for HCTF reflect additional payments related to the disaffiliation of the Tri-County Health Department as a PERA-afflilated employer, effective December 31, 2022. The additional employer disaffiliation payment allocations to the HCTF and Local Government Division Trust Fund were \$0.020 million and \$0.486 million respectively.

2023 Changes in Plan Provisions Since 2022

As of the December 31, 2023, measurement date, the fiduciary net position (FNP) and related disclosure components for the Health Care Trust Fund (HCTF) reflects payments related to the disaffliation of Tri-County Health Department (Tri-County Healtr) as a PERA-affliated employer, effective December 31, 2022. As of the December 31, 2023, year-end, PERA recognized two additions for accounting and financial reporting purposes: a \$24 million payment received on December 4, 2023, and a \$2 million receivalbe. The employer disaffliation payment and receivable allocations to the HCTF and Local Government Division Trust Fund were \$1.033 million and \$24,967 million, respectively:

# Note 2- Significant Changes is Assumptions or Other Inputs Affecting Trends in the Actuarial Information

2024 Changes in Assumptions or Other Inputs Since 2023

Salary scale assumptions were altered to better reflect actual experience

Rates of termination/withdrawl, retirement, and disability were revised to more closely reflect actual experience

The adjustments for credibility applied to the Pub-210 mortality tables for active and retired lives, including beneficiaries, were updated based upon experience. In addition, the mortality projection scale was updated to the 2024 adjusted scale MP-2021 to reflect future improvements in mortality for all groups.

Participation rates were reduced

MAPD premium costs are no longer age graded.
